"I would like to see every gay doctor come out, every gay lawyer, every gay architect, every gay teacher come out. I think it’s important for the world to know that we exist and to be proud of our achievements. It’s okay to be gay, it’s okay to be different. It’s important to come out. Only then can we start to change the world for the better." — Harvey Milk, 2000

**REMINDERS:**

- **Be Showcased**
  https://ess.unm.edu/resources/showcases/index.html

  There is more to our students than just their technical interests. And, the more outside interests and experiences one has, including the arts and creative thinking, the better! Engineering and computing makes one's other interests stronger, and those other interests enhance one's engineering and computer science knowledge and ability.

  These abilities include, but are not limited to, blogs (creative or technical), art work (visual or auditory), writings/reports (creative or technical, including published manuscripts), and presentations (oral or posters).

  Are you interested in being showcased? Contact Dr. Yadéeh Sawyer at yadeeh@unm.edu or (505) 277-9151. She is always looking for more examples!

- **ESS Fall 2023 Tutor Schedule is now up!**
  Each semester, ESS hires undergraduate seniors and graduate students within each engineering discipline to provide tutoring for each subject. Schedules are posted at the beginning of the semester and include days, times and locations of every tutoring session.

  [https://www.hertzfoundation.org/the-fellowship/apply-for-fellowship/](https://www.hertzfoundation.org/the-fellowship/apply-for-fellowship/)

**What is the Hertz Fellowship?**

The Hertz Fellowship empowers the nation’s most promising doctoral students in science and technology to pursue research that best advances our nation’s security and economic vitality. Hertz Fellows receive up to five years of funding, offering flexibility from the traditional constraints of graduate training and the independence needed to innovate. In addition to receiving financial support, Hertz Fellows join a multigenerational, intellectual community of peers, providing a unique engine for professional development and collaboration. (Eligible applicants must be US citizens or permanent residents.)

**How can prospective applicants learn more about the Hertz Fellowship?**

The Hertz Foundation held an online information session for prospective applicants, during which Hertz Fellowship Director Derek Haseltine and Hertz Fellows Nikhil Bhattachasali, Bailey Flanigan, and Jane Wang discussed this unique doctoral funding opportunity and provided advice to help prepare your application. The resources below also provide additional information about the fellowship.

We encourage you to share this email with students who have a broad understanding of science and technology, exceptional creativity, and a keen interest in applying innovative research toward strengthening our nation and impacting lives. I've also attached a graphic to publicize on social platforms...
If you have questions at any point, please do not hesitate to reach out, dhaseiline@hertzfoundation.org, or feel free to schedule a meeting with me to learn more.

- **UNM Enchanted Eclipse Viewing Party 2023**
  Experience the annular eclipse with astronomers at The University of New Mexico's Enchanted Eclipse viewing party

The University of New Mexico (UNM) invites the community to witness a remarkable celestial event as an annular eclipse will grace Albuquerque’s sky on Saturday, Oct. 14. The UNM Department of Physics & Astronomy, along with faculty, students, and staff, will host the event on UNM’s Johnson Field beginning at 8:30 a.m.

The event will provide spectators an opportunity to experience the wonder of this rare phenomenon with the expertise and guidance of UNM astronomers. Albuquerque is in the direct path to view the annular eclipse and is a prime location for an awe-inspiring display for all to see. Other parts of the southwest will only see a partial solar eclipse.
The Annular Eclipse, which begins at 9:13 a.m. when the moon begins to block the sun, is a mesmerizing occurrence where the Moon aligns perfectly between the Earth and the Sun, leaving only a brilliant ring of light around the edge of the Sun visible, creating a remarkable “ring of fire” effect, which will occur at 10:36 a.m.

For complete details, visit [UNM hosts Enchanted Eclipse viewing party](https://outlook.office.com/mail/inbox/id/AAQkADJiYjc0NTFmLTY0MWEiNGQ5NC1hZjFmLTY0NjQ2ZjgwZjcxMwAQACx%2FTNJlVdJEgqvztGizFX4...).

- **Free confidential counseling**
  The UNM Counseling Program is excited to be offering free confidential counseling for children, adolescents, adults, couples, and families this semester on our UNM main campus clinic. This center is a training center for our advanced graduate students under supervision from our amazing UNM faculty and licensed professional counselors. These sessions will last 50 minutes and allow clients to be seen each week throughout the Fall semester. These sessions will be video recorded for supervision purposes and stored in a secure HIPAA compliant space. Appointments are available on Monday, Tuesday, and Wednesday all the way until 7 pm.

  Please call us at 505-277-7311 to complete a brief telephone screening to determine that our services are best for you. We look forward to hearing from you soon!
Weekly UNM Nature Walks
If you've never joined us before, Nature Walk is a weekly event hosted by the Museum of Southwestern Biology. **We meet every Friday at noon at the UNM Duck Pond** for an hour-ish walk around campus to explore the nature around us. Many times, this includes teaching newcomers how to use community science apps like iNaturalist and eBird (especially during BioBlitz time), but we've also done themed walks like duck anatomy illustration, turtle counts, an arboretum tour, edible plants, and more!
