- Film Screening and Q&Q with Coded Bias filmmaker Shalini Kantayya
  Film screening will be Friday, March 22, noon-1:30pm, HSLIC-428. Register [here](https://outlook.office.com/mail/inbox/id/AAQkADJiYjc0NTFmLTY0MWEtNGQ5NC1hZjFmLTY0NjQ2ZjgwZjcxMwAQAIIcALX59E9s%2BE%2Fwp6uljb6p2). Film can also be watched on demand for UNM affiliates [here](https://outlook.office.com/mail/inbox/id/AAQkADJiYjc0NTFmLTY0MWEtNGQ5NC1hZjFmLTY0NjQ2ZjgwZjcxMwAQAIIcALX59E9s%2BE%2Fwp6uljb6p2).

The Health Sciences Library & Informatics Center is pleased to offer **Q&A with filmmaker Shalini Kantayya**, visionary filmmaker behind the critically acclaimed documentary, **Coded Bias**. This online event offers a rare chance to connect directly with Kantayya, gaining insights into the making of the film, the challenges of exploring complex themes such as AI bias, and the profound implications for healthcare and society.

Filmmaker Shalini Kantayya’s **Coded Bias**, premiered at the 2020 Sundance Film Festival. She directed for the National Geographic television series Breakthrough, Executive Produced by Ron Howard, broadcast globally in June 2017. Her debut, **Catching the Sun**, premiered at the LA Film Festival and was named a NY Times Critic’s Pick.

Session will be facilitated by Professor Sonia M. Gipson Rankin, UNM Law School. Rankin's work combines her computer science background with her passion for legal justice. Her work focuses on all things innovation, particularly related to technology, the family, and legal education.

**Coded Bias** explores the fallout of MIT Media Lab researcher Joy Buolamwini’s startling discovery that facial recognition does not see dark-skinned faces and women accurately, and her journey to push for the first-ever legislation in the U.S. to govern against bias in the algorithms that impact us all.

Session will highlight
Contributions of women researchers, activists, and policymakers who are leading the charge to address biases within AI systems, ensuring that technology advances with consideration for equality and social justice.

How AI-driven technologies influence decision-making processes, societal norms, and individual behaviors, prompting reflection on the steps needed to ensure responsible AI integration.

The complex ways in which AI technologies affect individual rights and collective freedoms, highlighting the nuanced challenges posed by facial recognition and algorithmic decision-making.

  Including...
• **Free confidential counseling**

The UNM Counseling Program is excited to be offering free confidential counseling for children, adolescents, adults, couples, and families this semester on our UNM main campus clinic. This center is a training center for our advanced graduate students under supervision from our amazing UNM faculty and licensed professional counselors. These sessions will last 50 minutes and allow clients to be seen each week throughout the Fall semester. These sessions will be video recorded for supervision purposes and stored in a secure HIPAA compliant space. Appointments are available on Monday, Tuesday, and Wednesday all the way until 7 pm.

Please call us at 505-277-7311 to complete a brief telephone screening to determine that our services are best for you. We look forward to hearing from you soon!

• **Open Chalk Night**

*Even if you don’t want to present, it’s a great opportunity to learn!*

Open chalk night is a monthly meetup for graduate and undergraduate students to practice presenting mathematics at a blackboard to an audience. Modeled after the Graduate Teaching Seminar presentations and open mic nights where would-be musicians play songs to a distracted audience, this event is a time for students to socialize and develop comfort communicating mathematics and recovering from mistakes.

Here’s how it works: Bring a problem, sign up to present on the sign-in sheet, wait your turn, then take the chalk and present. Problems can come from anywhere (homework, contests, etc), but please keep it to something that can be presented in 5-10 minutes.

Snacks and beverages will be provided.

• **Weekly UNM Nature Walks**

If you’ve never joined us before, Nature Walk is a weekly event hosted by the Museum of Southwestern Biology. **We meet every Friday at noon at the UNM Duck Pond** for an hour-ish walk around campus to explore the nature around us. Many times, this includes teaching newcomers how to use community science apps like iNaturalist and eBird (especially during BioBlitz time), but
we've also done themed walks like duck anatomy illustration, turtle counts, an arboretum tour, edible plants, and more!
