PAID STEM INTERNSHIP OPPORTUNITIES

IN SUPPORT OF DEPARTMENT OF DEFENSE MAJOR
RANGE AND TEST FACILITIES

SUMMER 2022

ABOUT THE PROGRAM

Broadleaf Inc. is supporting the Department of Defense (DoD) Test Resource Management Center (TRMC) Sponsored Science, Technology, Engineering and Math (STEM) Internship Initiative. It consists of work assignments at 23 Major Range Test Facility Base (MRTFB) activities. This internship is designed to acclimate you to the fundamentals and concepts of Test and Evaluation (T&E) within the DoD. While applying your knowledge, you’ll broaden your skills and gain valuable experience as you are exposed to test and evaluation in real world settings.

When you participate in the TRMC STEM Internship Program, you will:

- Apply for a security clearance with the DoD
- Gain hands-on engineering experience working on a Test and Evaluation (T&E) related task that will be aligned with your major area of study
- Work directly with other STEM professionals in a team environment
- Attain knowledge about the Department of Defense and how it protects the security of our nation
- Develop your skills under the guidance of professional and experienced mentors
- Use our internship program as a gateway to network and explore potential job opportunities within the DoD
- Receive weekly Technical Talks from Subject Matter Experts on topics such as Hypersonics or Directed Energy hosted by TRMC
TEST RESOURCE MANAGEMENT CENTER (TRMC)
SPONSORED STEM INTERNSHIP INITIATIVE
Summer 2022

Who We Hire?

Ideal candidates:

- Have an interest in a project-based internship learning more about Department of Defense (DoD) testing needs, resources, and capabilities
- Can thrive in a high-performance culture that values teamwork and collaboration
- Possess strong leadership and communication skills
- Have sound technical and analytical engineering skills, as demonstrated through strong academic performance
- Have a 3.0 GPA or better in their major area of study
- Are excited when presented with complex challenges to solve

To qualify for the intern position, you must be:

- A current full-time enrolled college student
- A STEM student majoring in a Science, Technology, Engineering, or Mathematics discipline
- A sole U.S. citizen (no dual citizenship)
- Able to obtain a minimum of a DoD SECRET clearance
- Committed for the period June 5 – August 12, 2022

Only completed applications will be considered. A complete application includes the following:

1. Completed application form (see the link below)
2. Resume with cover letter
3. Your resume should include any engineering project experience either through school, private industry or through other internships
   (Cover letter should address your career goals and motivation for applying)

Please complete the application and upload supporting documents to: TRMC STEM Intern Application
