

STEM Summer Programs for High School Students

Engineering and Computing Summer Academy

Tuition fully covered - PRIORITY DEADLINE: March 15, 2026

COMMUTER PROGRAM

June 1 - 12, 2026 (M-F)

This 2-week commuter program offers students STEM activities and learning experiences in engineering and computer science fields. There are themed weeks to learn from, including field trips and a variety of hands-on activities.

Lunch provided daily.

Preferred grade: Incoming 8th, 9th and 10th graders.

RESIDENTIAL PROGRAM

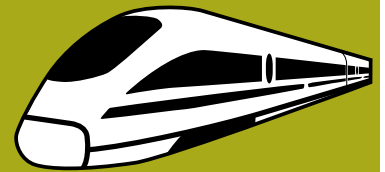

June 22 - July 17, 2026

This 4-week residential program, in partnership with the Federal Highway Administration and the NM Department of Transportation, introduces and engages students to the transportation industry and STEM fields.

Room and board might be included.

Preferred grade: Incoming high school juniors and seniors.
