Project Engineer

Overview

At Corbins, we believe people are first! Our teammates, partners, and customers can expect that we genuinely care to serve them and look out for their best interests. Our culture is built on the cornerstone of our Core Values – Passion, Relationships, Innovation, Development and Excellence! They set our expectation of each and every employee and are integrated in everything we do. As one of the largest electrical contractors in the Southwest and an industry leader in virtual construction, fabrication, electrical construction, and electrical service, we continually look for people who share in our Core Values to better themselves and contribute to our mission of changing the construction industry as empowered thought leaders.

We are currently seeking Project Engineers to support the construction of the most challenging and exciting projects in the Southwest, including commercial, industrial, mission-critical and water/wastewater treatment facilities.

Responsibilities

- Coordinates directly with the Project Manager and Project Superintendent to support project success, including fostering a positive safety and quality culture
